ENLS

EMERGENCY NEUROLOGICAL LIFE SUPPORT

Secunderabad | Kondapur | Nellore | Rajahmundry | Srikakulam | Ongole

Dear Colleagues,

Over the past decade, giant leaps have been made in the field of neurological sciences. Neuro intensive Care has emerged as a subspeciality in its own right, with its unique concepts, challenges, technical skills and treatment strategies.

The cornerstone of a successful neurological outcome hinges on "what is done in the first few hours of a neurological emergency" and the coordinated multidisciplinary care of ER Physicians, Neuro Intensivists, Neurologists, Neurosurgeons and General Medicine Physicians.

ENLS is a structured training programme to address this issue in the "golden hour" to give you an edge in improving patient outcomes. For the first time in South India; we are hosting this programme under the aegis of Neurocritical Care Society, USA.

So come and get CERTIFIED in ENLS.

We have also planned a host of "hands on workshop" that will let you experience the latest technologies and advances in neurointensive care. You will also get a chance to integrate all that you have learned, in our Neurosimulation Workshop, based on real life case scenarios.

Do not miss the opportunity to be part of this enriching educational experience.

We invite you to participate in our "NICE symposium" to be held on 11th and 12th August, at KIMS Hospitals.

Its "NICE" @ KIMS.
